International application No.  
PCT/IN 2004/000342

**Continuation of first sheet**

**Certain claims were found unsearchable:**

Observations where certain claims were found unsearchable

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

Claims Nos.: 12-14 because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:

A product-by-process claim (claim 12) is only admissible, if the product cannot be described by structural features; this is presently not the case.

Any reference to parts of the description is not allowed within the claims (claims 13-14).
